TO WHOM IT MAY CONCERN

UN Women Ethiopia office writes this recommendation letter for SHEGA Interior Design. We selected SHEGA Interior Design for the Security Enhancement and Interior Design work in our office which was expected to handled starting December 2021 – April 2022.

The Project includes Glass partitions, custom cabinets, laminate countertops, solid surface window sills and counters, wood baseboards and trims, artwork display units, cubbies, and Metal exterior glazing. Shop drawings were thorough and presented in an easy-to-read electronic format, in conformance with the specifications. Changes to the design were priced quickly and fairly. The materials were shipped to site on schedule and promptly installed by SHEGA Interiors team forces in a safe and efficient manner.

Construction is an area which requires seamless work with no interruption. SHEGA interiors team has always made sure that the work goes by the predefined schedule. Their leadership qualities make them the best to lead the design build industry. They have a great length of knowledge and experience when it comes to their field. That is the reason we are very confident to work with them. SHEGA team will review the construction site at the beginning and share their unique ideas with negotiation skills.

UN Women is happy on SHEGA's work and service and confident enough to recommend the organization for the Interior Design and construction work.
